ANNOUNCEMENT

Micro Laboratories, Inc. is celebrating our 15th anniversary. Founded in 1987 we have grown to over 1,500 customers in several countries. We provide calibration services to customers in a variety of industries including Aerospace, Automotive, Medical, Nuclear, and Commercial. Micro Laboratories, Inc. is the first dimensional calibration laboratory in the greater Cleveland area to achieve accreditation from The American Association for Laboratory Accreditation (A2LA). Our initial accreditation was to ISO Guide 25, our current accreditation is to ISO/IEC 17025.

“Our past has positioned us for the future” stated Keith Kokal, Laboratory Manager for Micro Laboratories, Inc. We are expanding our calibration capabilities. We have built two new laboratories next to our long established dimensional calibration laboratory. We are also expanding into the calibration of Torque Equipment, Electrical Instruments, and Pressure Gages.

Jackie Zavoda, Micro Laboratories first full time employee and Keith Kokal display their 15 year anniversary plaque.

CALIBRATION & CERTIFICATION

Gage Blocks, Gage Pins, Length Standards, Micrometers, Calipers, Indicators, Height Gages, Ring Gages, Thread Gages, Plug Gages, Thread Wires, Supermicrometers, Dimensional Inspection, Angle Plates, Precision Squares.

New Expanded Scope: Accredited to ISO / IEC 17025-1999
